

Bleach Germicidal Wipes

Take control in an ever-changing healthcare environment with Ready-to-Use Bleach Cleaner Disinfectant Wipes

Proven Efficacy

- EPA-registered to kill 58 prevalent HAI-causing pathogens and outbreak-causing viruses in 3 minutes or less.¹
- *C. difficile* sporicidal efficacy tested in the presence of 3-part organic soil load to meet updated EPA testing guidance.²

Trusted by Healthcare Facilities

- Over 25 peer-reviewed articles cite bleach-based disinfection protocols as key components of infection prevention strategies.
- Meets CDC recommendations for cleaning and disinfecting surfaces in patient care areas.

Optimized for Extended Usage

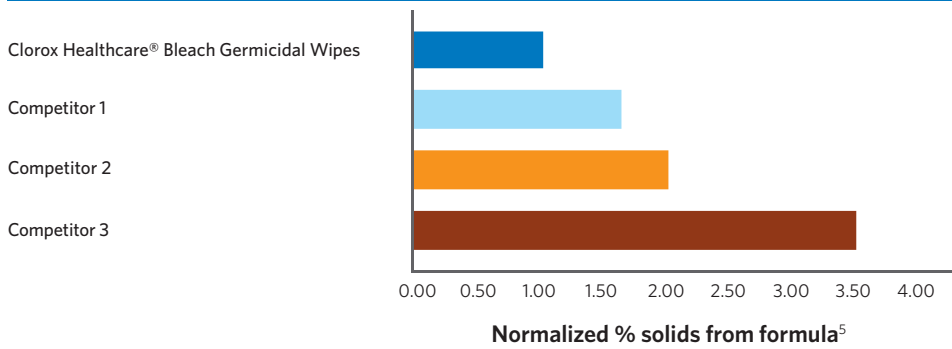

- Compatible with common healthcare surfaces including plastics and stainless steel.
- Recommended in medical equipment cleaning and care guides.³

1. Use as directed on hard, nonporous surfaces. Follow special instructions for cleaning prior to disinfection.
 2. Tested in the presence of 3-part organic soil load following EPA Guidance for the Efficacy Evaluation of Products with Sporocidal Claims Against *Clostridium difficile* (June 2014).
 3. Consult medical equipment warranty information and equipment care and cleaning guides prior to selecting and using any surface disinfectant.
 *Refer to product label for full list of disinfecting claims.

At a Glance Clorox Healthcare® Bleach Germicidal Wipes (EPA Reg. No. 67619-12)

HMIS rating	1-0-1-A
PPE Required	Follow your facility's protocols

Clorox Healthcare® Bleach Germicidal Wipes Engineered to Maximize Efficacy, Minimize Residue

How much residue can your bleach wipe leave behind?

2/3 of US healthcare disinfectant decision makers would use bleach in more places if they knew bleach residue could be easily removed.⁴

Visibly Less Residue vs. Competitor Bleach Wipes

12"x12" clear acrylic tiles wiped once with similarly-sized bleach wipes and allowed to dry.

Residue can be wiped away after

- ✓ 1 wipe
- ✓ 10 wipes
- ✓ 30 wipes

Plastic tiles wiped 30 times over the course of 2 weeks with Clorox Healthcare® Bleach Germicidal Wipes (A) then polished with a damp cloth (B).

Available in multiple wipe sizes and formats to ensure the right tool for every disinfecting job

FOR HARD SURFACES

Clinical Wipes (5"x6")

Designed for: daily disinfection, high-touch surfaces and medical equipment

Item No. 30577, 150 ct. canister, 6/case

Multi Purpose Wipes (6.75"x9")

Designed for: daily disinfection, patient room surfaces and medical equipment

Item No. 35309, 70 ct. canister, 6/case

Terminal Wipes (12"x12")

Designed for: discharge disinfection, large areas

Item No. 30358, 110 ct. bucket, 2/case
Item No. 30359, 110 ct. refill, 2/case

4. Online survey of 208 healthcare disinfectant decision makers, April 2017.
5. Laboratory testing conducted to measure percentage solids in disinfectant formula.
