

PVAmicro

Streak free, clean and fast

The new revolutionary cloth that cleans and wipes the surface dry in one single movement. The all new PVAmicro combines the best of two materials into this unique high performing cloth. PVA for ultimate absorbency and microfibre for maximum cleaning performance.

No risk of scratching delicate surfaces as the PVA surface makes it easy to rinse out particles when dipping and wringing the cloth. With just one wiping movement the surface is left clean AND dry increasing your efficiency. With the microfibres' cleaning power and the elimination of after-drying, the PVAmicro is the favourite solution for fast and effective wiping!

Streak-free cleaning performance

The combination of knitted microfibre and PVA ensures perfect results on all surfaces - glass, office furniture, stainless steel and many more. The PVA ensures a streak-free cleaning performance that eliminates after-drying.

Durable and easy to rinse

PVAmicro holds 40 times less particle residue after rinsing compared to an ordinary knitted microfibre cloth. The PVAmicro can be washed several hundred times.
